

# WHO WE ARE

## INDIVIDUALITY & INCLUSION

As women, non-binary, and gender expansive people, we believe in individuality and embrace our collective differences to make us stronger.

We value different perspectives.

## EMPOWERMENT & GROWTH

We believe in empowerment and create a positive, yet challenging, environment to better ourselves and each other. We find community within competition.

## FUN & FORCE

We believe in fun and actively seek out joy to help lessen life's stresses. We realize that when we have fun together, we can also work hard together. We have a damn good time.

## COMMUNITY INVOLVEMENT

We believe in community and work to better ours through volunteering and donations. We fiercely support the causes and groups that are important to us and are grateful for our fans who support us and help us do so.
